Background:

The Slaughterhouse Feasibility Study is a component of the Marianas Grazing and Livestock Management Academy (a project of the University of Hawaii's College of Tropical Agriculture and Human Resources in collaboration with the Northern Marianas College - refer to:

<http://marianasgrazingacademy.org/index.htm>). The Study, initiated in November 2010, is evaluating the overall feasibility of establishing a slaughterhouse/meat business in Guam, Saipan, Tinian, and/or Rota as a means of providing value-added agricultural development and business opportunities in the islands. The Study is being led by Mr. Jim Wimberly, president of Ag/Energy Enterprises LLC, under a subcontract to the University of Hawaii.

For details regarding the study, refer to:

<http://www.agenergyenterprises.com/feasibility/index.html>).

To reserve a copy of the workshop materials, please RSVP by April 25th to:

Dr. Bob Barber, Agriculture & Natural Resources, University of Guam
